EXPERIENCE

FESTEMBER | Web Developer
August 2018 – Present | Trichy, TN
- Developed, reviewed code for Basic CMS Helper module.
- Updated the inductions site for Festember 2019.
- Used by more than 5000 students during the fest.

DELTA FORCE | Software Developer
July 2018 – Present | Trichy, IN
- Premier computing club and central web team of the National Institute of Technology, Tiruchirappalli.
- Was selected in the top 9 out of 250+ applicants.
- Responsibilities: Part of college's webteam, develop and provide services to automate college fests.

PROJECTS

BEER FACTORY | Lead Developer | Website
November 2018 – Present | NIT Trichy, IN
- An online strategy-based, single-player game that is designed to test the art of resource management. Each participant competes against a computer simulated opponent.
- Designed and implemented the game API from scratch in Django and the game UI in BabylonJS, ReactJS, Redux and SemanticUI.
- Wrote models, game and leaderboard logic. Designed the gamepage UI, reusable menus, display components and made game mobile responsive.

FEST API | Developer
Aug 2018 – Present | NIT Trichy, IN
- Developed, reviewed code for Basic CMS Helper module.
- RESTful API for managing college fests.
- Written in Laravel 5.1, used by more than 6000 participants and organisers.

SCHOLARSHIP PORTAL | Lead Developer
scholarship.nitt.edu | August 2018 – October 2018 | NIT Trichy, IN
- A portal for NITT students to register for scholarships.
- Worked on the front-end part of the client and admin portal.
- Includes an interface for admin portal to view, approve and reject registrations.
- Written in nodeJS, Bootstrap, used by students of NIT Trichy.

FOOD SHARE | Full Stack Developer
June 2018 – July 2018
- A social web application that allow individuals to share surplus food items, with instant chat feature.
- Written in PHP, Bootstrap and uses Google Maps API.

AWARDS

2018   Finalist   HackerTech'18, VIT Vellore
